

Letter of thanks from FutureChina to the African Youth Movement

Dear Mr. Otu,

Thank you very much for writing the recommendation letter for us, and thanks for AYM's support all the time! With the admiration of AYM's contribution to social progress in Africa and United Nations affairs, as well as its global influence, we will publicize AYM on our official media, so that Chinese youth can learn from your experience. In the context of China's deregulation of epidemic control, we believe that there are many opportunities for us to jointly launch public welfare activities and forums in 2023. The development of Africa China friendship has always been the common vision of people in the two countries. It is hoped that we can become a link to pool the strength of the youth and together realize the progress of the international community and the common well-being of the global people.

Yours sincerely,

Kang Weiyang, President of FutureChina

Cheng Ken, Secretary-general of FutureChina
